from Day One

Standard Process
VETERINARY FORMULAS™

“

I was really interested in finding a practitioner who recommended Standard Process because I have been taking Standard Process products. I love that they're high-quality, whole food-based supplements that are backed by science.

– Elena, Pet Owner and Pet Foster Parent

”

You Gave Them a **Happy Home**

Now Help Them Live a **Healthy Life**

Congratulations for helping your kitten start off on the right paw with the Standard Process Kitten Kit.

The key to optimal health is a diet rich in a variety of complex nutrients, and young cats have nutritional needs beyond what their regular diets may provide. Those needs change based on age, activity level, and health status.

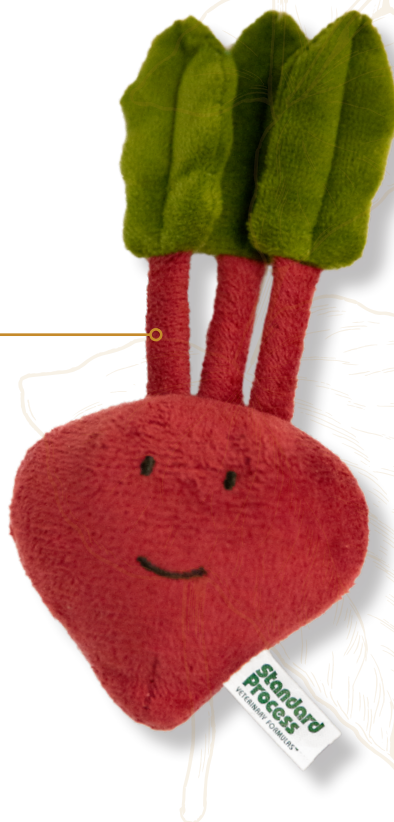

Standard Process Veterinary Formulas™ are made with whole foods and other ingredients to give your kitten what he or she needs to thrive.

They provide vitamins, minerals, trace minerals, and phytonutrients in forms that are as close as possible to the way nature intended so that you can give the pet you love the life they deserve.

The Start of a Lifelong Journey

The Kitten Kit is intended to introduce your cat — and your family — to the wonderful differences that proper nutrition can make. When Standard Process pet products are part of your daily routine, you are better equipped to help your best friend enjoy happier years.

In addition to supplements, your Kitten Kit includes a free gift that shows off your commitment to helping your pet achieve optimal wellness.

Purrr-fect Kitten **Products**

Learn more about the supplements included in the Kitten Kit

Feline Whole Body Support

Made from whole foods, organ and tissue extracts, botanicals, and other ingredients to fill nutrition gaps

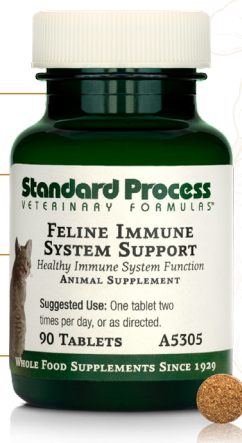

Provides general multisystem support for daily maintenance of all body systems with an emphasis on a healthy endocrine system

Is an excellent nutritional foundation for use with all other system-support formulas

Feline Immune System Support

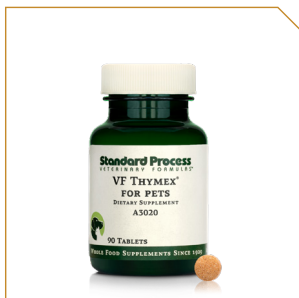

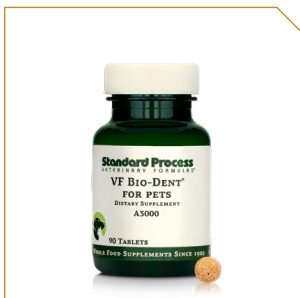

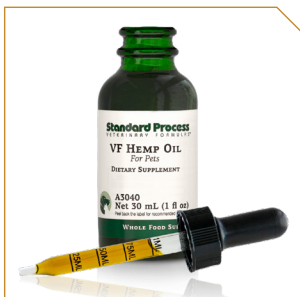

Supports optimal immune system function

Provides nutritional and biochemical support for healthy immune cells and tissues

Every **Age** + Every **Stage**

As your kitten ages, his or her nutrition needs will change. That's why we have a complete line of feline products ready to provide support. With the help of your veterinarian, you can add formulas as necessary to encourage a lifetime of good health. Here are some of our popular products:

We offer additional feline products at standardprocess.com/brands/veterinary-supplements

“

In this day and age, when everyone is seeking more healthy choices and support for themselves and their beloved family pets, I can recommend Standard Process products with confidence. The quality and amazing results I get make this an easy step towards helping patients live healthier lives.

Whole Food Supplements Since 1929

Standard Process has made whole food-based nutritional supplements for more than 90 years. The great majority of the crops we use come from our certified organic farm in Palmyra, Wisconsin. We use human-quality ingredients in our veterinary formulas and oversee every step of the process so that we know what goes into each of our safe and effective products.

**We know what is good for us,
is also good for our pets.**
