Cod Liver Oil

Features of Cod Liver Oil:
- Helps to bridge the gap in dietary omega-3 intake*
- Supports general health and healthy inflammatory processes
- Supports immune system response
- Addresses vitamin A and vitamin D deficiency
- Supports healthy eyes and skin
- Supports epithelial tissue
- Supports bone and tooth health
- Supports musculoskeletal system
- May support mood challenges and liver function*

Foundational Support
Cod Liver Oil is part of the Standard Process line of omega-3 oils that supports general health and overall well-being. Cod Liver Oil is naturally rich in nutrients and careful processing ensures that it maintains its natural profile of vitamin A, vitamin D, and omega-3 fatty acids.

Vitamin A and Vitamin D Deficiency
The body needs vitamins A and D to support the bones, eyes and liver, as well as cardiovascular and immune health. Vitamins A and D in sufficient amounts help keep the body active and healthy. Cod Liver Oil is naturally rich in both vitamins A and D, making it the perfect supplement to address this common deficiency.

Available Size:
- Cod Liver Oil

Bridging the Gap in Dietary Omega-3 Intake

Omega-3 fatty acids play a critical role in the human body and regulate various functions in the cardiovascular, pulmonary, immune, nervous1 and endocrine systems.2,3 While these essential fatty acids are key in helping the body to run smoothly, our bodies do not produce them and must, therefore, be obtained from diet. However, a large percentage of the U.S. adult population falls below the recommendations for omega-3 fatty acid consumption.4 Standard Process Cod Liver Oil helps bridge the dietary gap of omega-3 with 300 mg of DHA and 210 mg of EPA omega-3 fatty acids per serving.*

In-house scientists rigorously research, develop and test all products to ensure the highest quality.

Our ingredients are of HIGH QUALITY. Our vertically integrated manufacturing processes ensure quality from start to finish.

High-Quality, Wholistic Clinical Nutrition

Since 1929, Standard Process has been dedicated to the field of nutritional supplements and the whole food philosophy introduced by Dr. Royal Lee. We are committed to growing and sourcing only the highest quality ingredients. For products like our omega-3 oils that can’t be grown on our own organic farm, we go to great lengths to find sources that practice, sustainable methods and apply high-quality standards like we do.

Our EPA and DHA products are of the highest quality, which means:
• Below regulatory standards for contaminants and toxins
• Pure, high quality, concentrated oils
• Sustainably sourced ingredients
