

FemCo

Hormonal Support for Women

Delivering Health Solutions That Work

MediHerb was co-founded in 1986 by world-renowned phytotherapist, Associate Professor Kerry Bone. In his words, "Our passion at MediHerb is to unlock the healing power of plants by combining the time-honored wisdom of traditional knowledge with sound clinical experience and the rigor of scientific research. This quest can only be attained by the total commitment to quality and continuous improvement which permeates every aspect of our endeavours."

In over 20 years of operation MediHerb has not only demonstrated an unwavering commitment to quality in herbal products, we have redefined it. We believe our unique approach to quality sets a standard for herbal products that is unsurpassed in the world today.

Kerry Bone and over 20 health care professionals work within MediHerb while still maintaining their own clinical practices. We know from our experience that the quality of a product you take makes a huge difference to the health outcome you experience. We dedicate ourselves to researching and making the best possible products to deliver you health solutions that work.

Essential Support for Female Vitality

FemCo

MEDI HERB®

FemCo – Superior Support for Women’s Endocrine Health

Women today are empowered to do so much. In our busy and productive lives, we make time for family, friends and work. But sometimes, when we’re juggling everything at once, we find we need a little help.

A build-up of everyday pressures can affect our well-being, impacting on the body’s most important systems. Like the endocrine system, which influences almost everything about us – regulating mood, metabolism, reproductive processes and more.

That’s when FemCo may help. This exciting new supplement is designed to support women’s health on many levels, assisting the female body’s natural ability to restore balance.*

What is FemCo?

FemCo is a unique formulation of White Peony root, Shatavari root and Schisandra fruit. Together, these complementary ingredients support normal reproductive system function, ease the effects of menstrual cramping, promote liver wellness and help us cope with daily tensions.*

In the traditional Chinese system, White Peony has long been used to help encourage a normal menstrual cycle and support women’s reproductive health. Shatavari is equally prized in India’s Ayurvedic medicine as a women’s tonic. It nourishes the reproductive organs and supports healthy blood production. In the Far East, Schisandra has been used for centuries to support a healthy liver. It is thought to balance the body’s functions, sustain energy and alleviate the effects of life’s stresses and strains.*

How is FemCo Unique?

FemCo is a gentle, safe, yet powerfully effective women’s tonic. Through its action on key body systems, it promotes overall well-being.*

You can have complete confidence in the quality and integrity of the FemCo production process. It is manufactured in Australia, to the high standards of international pharmaceutical Good Manufacturing Practice.*

White Peony is a good example of MediHerb’s commitment to stringent quality testing. It is common for White Peony roots to be bleached, to enhance whiteness. But this changes the herbs’ phytochemistry, greatly reducing its effectiveness. MediHerb tests every batch to ensure the White Peony Root has not been bleached.

Who Needs FemCo?

FemCo is a useful support for all pre-menopausal women to help maintain general health and well-being. It is particularly valuable for women who need support to maintain a healthy menstrual cycle.*

FemCo may also be beneficial for liver function, energy production and mental function.*

Compelling Benefits

FemCo is a clinically effective combination of top quality White Peony, Shatavari and Schisandra. Working together, these restorative ingredients can help to:

- Support women’s general well-being and vitality
- Support normal reproductive function in women
- Ease the effects of cramping associated with menstruation
- Encourage healthy menstrual cycling
- Ease the effects of everyday tension and stress
- Support healthy liver function*

Ask your health care professional today if FemCo is the right women’s product for you. They will also inform you of any cautions to be aware of when taking this product.
