

Healthy Body, Healthy Mind

Hemp Oil from Standard Process —
for endocannabinoid system support*

WHOLE FOOD NUTRIENT SOLUTIONS

Why Choose Hemp Oil from Standard Process?

Our superior approach sets us apart from other hemp-based supplements.

Proven Sourcing

Our hemp is procured from a family owned and operated farm in Europe with decades of experience. This process ensures the highest-quality raw materials.

Supercritical Fluid Extraction Process

Utilizes CO2 instead of organic solvents. The result is an oil that is pure, potent, and contains no CBD isolates — which are considered drugs by the FDA and DEA.

Strict Quality Standards

Each batch is independently tested for purity and quality to ensure it lives up to our high expectations and falls below the reference standards of pesticides.

Ask your health care professional if Hemp Oil from Standard Process is right for you.

Physical and emotional stress — a two-pronged assault that virtually every patient knows well.

Physical stress is a regular — albeit unfortunate — part of life that impacts athletes, the elderly, and all people in between. It can affect various critical functions of the body system: nervous, endocrine, immune, musculoskeletal, and more. Everyone deals with it, and no one enjoys it.

Emotional stress is a burden that impacts everyone from students to executives, and the internal battle against external pressures is seemingly endless. According to a survey from the American Psychological Association, 75% of Americans reported “experiencing at least one stress symptom in the last month.”¹

The nexus for physical and emotional manifestations is found in the endocannabinoid system (ECS): the body-wide signaling network that promotes homeostasis and keeps the body’s processes stable even during physiological challenges.² That’s why Hemp Oil from Standard Process -- with 15 mg phytocannabinoids per serving -- is designed do support a properly functioning ECS.*

Hemp Stalk

Hemp Seeds

Organic Extra
Virgin Olive Oil

THE STANDARD PROCESS DIFFERENCE

Changing Lives With Nutrition

Standard Process:

- Is committed to changing lives with a whole food philosophy
- Grows many ingredients on the Standard Process certified organic farm in Wisconsin
- Is serious about quality
- Makes products to support the health of the whole family
- Partners with health care professionals
- Has been trusted for generations, with products that have been changing lives since 1929

At our practice, we believe that given the proper nutrition, the body has the amazing ability to keep itself healthy. We also believe that nutrition should be individualized to meet each patient's needs. We recommend and trust Standard Process nutritional supplements made with whole food and other ingredients.
