

Standard Process Hemp Oil Products

Endocannabinoid System Support | 15 mg phytocannabinoids per serving

Healthy Body, Healthy Mind

Physical and emotional stress — a two-pronged assault that virtually every patient knows well.

Physical Stress

- Everyone deals with it, and no one enjoys it
- It can affect various body systems: nervous, endocrine, immune, musculoskeletal, and more

Emotional stress

- The internal battle against external pressures
- 75% of Americans reported “experiencing at least one stress symptom in the last month.”¹

The Endocannabinoid System (ECS)

Body-wide signaling network that promotes homeostasis¹

Hemp Oil from Standard Process supports the ECS with 15 mg phytocannabinoids per serving*

The ECS helps to support:

- The Central Nervous System
- The Gastrointestinal System
- The Immune System
- Hormones
- Bones
- Muscles

Why Choose Hemp Oil from Standard Process?

Our superior approach sets us apart from other hemp-based supplements:

Proven Sourcing

- Procured from a European farm with decades of experience
- Ensures the highest-quality raw materials

Supercritical Fluid Extraction Process

- Utilizes CO₂ instead of organic solvents
- Results in a pure, potent oil
- Contains no CBD isolates — considered drugs by the FDA and DEA .

Strict Quality Standards

- Independently tested for purity and quality
- Falls below reference standards of pesticides
- Lives up to our high expectations

Hemp Oil

TrueBroc®

- Cruciferous vegetables like broccoli are rich in sulfur-containing compounds called glucosinolates
- Glucoraphanin, the type of glucosinolate in broccoli, helps to form sulforaphane¹
- Project Non-GMO Certified
- 5 mg Glucoraphanin in Hemp Oil Complex
- Nrf2 Activator for Anti-oxidant response

1. Fahey, J.W., et al., Protection of humans by plant glucosinolates: efficiency of conversion of glucosinolates to isothiocyanates by the gastrointestinal microflora. Cancer Prev Res (Phila), 2012. 5(4): p. 603-11.

Calamari Oil

- A large percentage of the U.S. adult population falls below the recommendations for omega-3 fatty acid consumption
- Supports healthy inflammatory processes*
- Certified sustainable from the independent nonprofit group Friend of the Sea®
