

Ideal Dispensary

Supporting health care practitioners with a systems-based approach to nutritional and herbal supplementation.

What is Ideal Dispensary?

Ideal Dispensary is a systems-based approach to health care. It helps you inspire, engage, and enable your patients to reach peak health by simplifying the product selection process.

Nutrient Solutions for Different Stages of Health Needs

Ideal Dispensary gives you the ability to recommend nutritional regimens specific to patient health needs – helping them move up the pyramid to healthy living.

Implement Ideal Dispensary into your practice with these tools

Product Booklets

Ideal Dispensary booklets help you select proper nutritional support for your patients. Browse products from distinct categories of health conditions and use the booklets to learn about our systems-focused approach.

Books are available in both print and digital form, and they can be found at:
www.standardprocess.com/Ideal-Dispensary

Box Set

Organize and display all 15 booklets in your clinic in an Ideal Dispensary box set. This allows you to quickly access each booklet and easily browse products.
