

# Ideal Dispensary

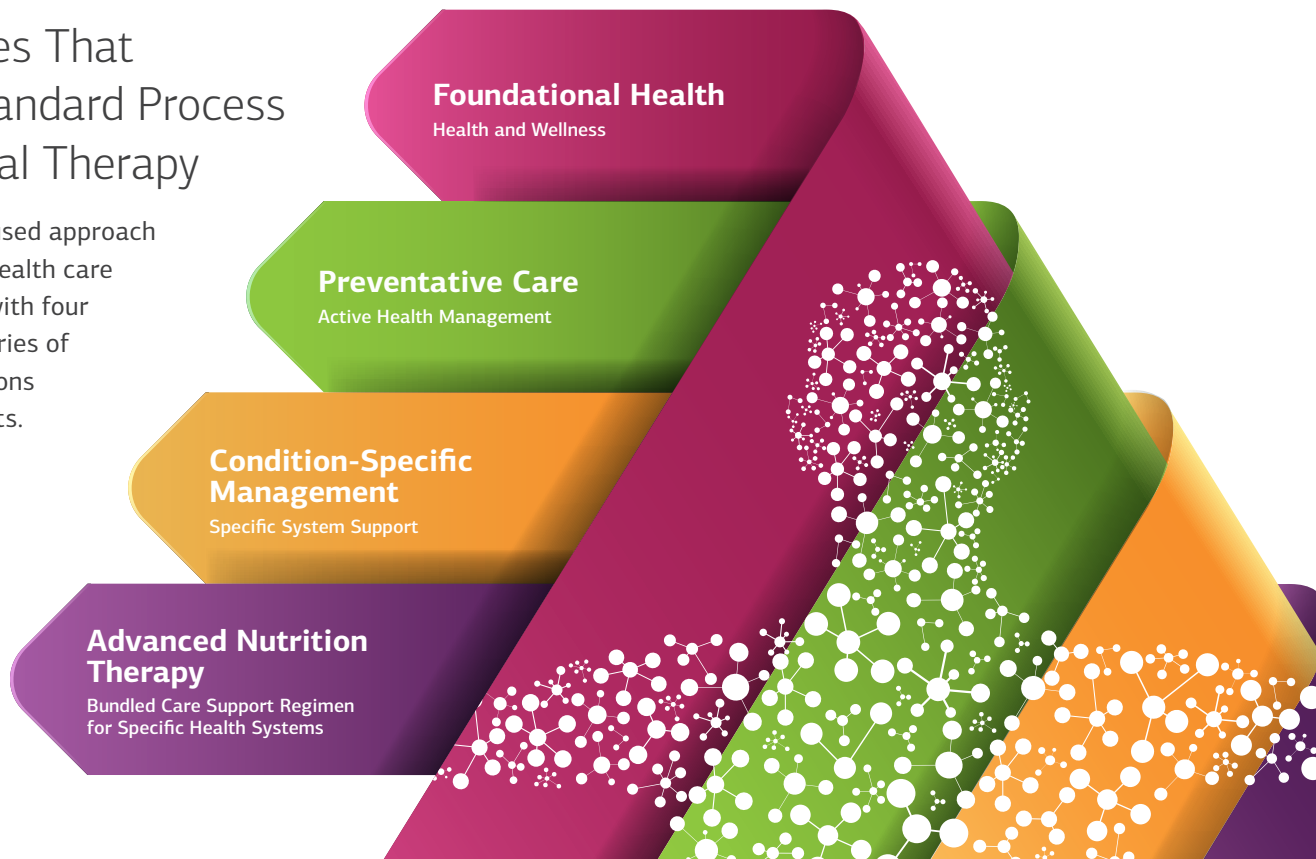

## Clinical Nutrition Product Portfolio

### Nutritional Supplement Guide for Patient Care

Products and product sets that help health care professionals simplify supplement recommendations to guide patients toward better nutritional outcomes.

### Categories That Guide Standard Process Nutritional Therapy

A systems-focused approach that provides health care professionals with four distinct categories of nutrition solutions for your patients.

Practitioner Focused. Patient Driven.

We focus on achieving wholistic health through nutrition. From our certified organic farm to our Nutrition Innovation Center, we are committed to clinical science that advances health and changes lives.

FOR PROFESSIONAL USE ONLY

# Product Sets that Support Each Level of Care
