

A Lifetime of
Wellness
from Day One

Standard Process
VETERINARY FORMULAS™

“ I was really interested in finding a practitioner who recommended Standard Process because I have been taking Standard Process products. I love that they’re high-quality, whole food-based supplements that are backed by science. ”

– Elena, Pet Owner and Pet Foster Parent

Puppies Make Our Lives **Better**

You've Just Returned the Favor

If your puppy could speak, they'd thank you for starting them off on the right paw with the Standard Process Puppy Pack.

The key to optimal health is a diet rich in a variety of complex nutrients, and young dogs have nutritional needs beyond what their regular diets may provide. Those needs change based on age, activity level, and health status.

Standard Process Veterinary Formulas™ are made with whole foods and other ingredients to give your puppy what he or she needs to thrive.

They provide vitamins, minerals, trace minerals, and phytonutrients in forms that are as close as possible to the way nature intended so that you can give the pet you love the life they deserve.

The Start of a Lifelong Journey

The Puppy Pack is intended to introduce your dog — and your family — to the wonderful differences that proper nutrition can make.

When Standard Process pet products are part of your daily routine, you are better equipped to help your best friend enjoy happier years.

In addition to supplements, your Puppy Pack includes a free gift that shows off your commitment to helping your pet achieve optimal wellness.

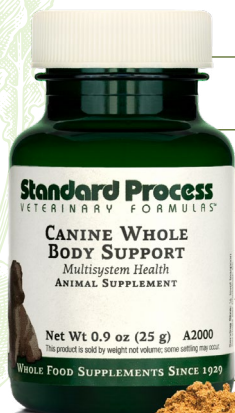

Phenomenal Puppy **Products**

Learn more about the supplements included in the Puppy Pack

Canine Whole Body Support

Made from whole foods, organ and tissue extracts, botanicals, and other ingredients to fill nutrition gaps

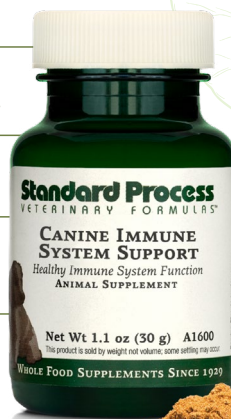

Provides general multisystem support for daily maintenance of all body systems with an emphasis on a healthy endocrine system

Is an excellent nutritional foundation for use with all other system-support formulas

Canine Immune System Support

Supports optimal immune system function

Provides nutritional and biochemical support for healthy immune cells and tissues

Every **Age** + Every **Stage**

Nutrition is important at every stage of a pet's life. Continue to support your dog as it gets bigger with our complete line of canine products. With the help of your veterinarian, you can add formulas as necessary to enable a lifetime of good health. Some of our popular products include:

We offer additional canine products at standardprocess.com/brands/veterinary-supplements

“

Food is powerful. The Standard Process mission of changing lives really impacted me.

”

– Dr. Sue Howell, DVM, CVFT, CVA

Whole Food Supplements Since 1929

Standard Process has made whole food-based nutritional supplements for more than 90 years. The great majority of the crops we use come from our certified organic farm in Palmyra, Wisconsin. We use human-quality ingredients in our veterinary formulas and oversee every step of the process so that we know what goes into each of our safe and effective products.

**We know what is good for us,
is also good for our pets.**
