21-Day Purification Program
Tired?
Weight loss challenges?
Poor digestion?
Purify your body. Transform your life.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Purify to reset your habits and re-engage with a healthy lifestyle.

Reset Habits (diet/hydration)

• Fried Carbs? Trans fats?
• Coffee, Sugar-sweetened drinks?

Re-engage with a healthy lifestyle

• Smoking? Stop!
• Cosmetics that bring beauty... and chemical passengers?
Purify to support your body’s natural detoxification processes.

Our environment, though cleaner than in the past, still contains pervasive

- Volatile chemicals like MTBE
- Fire retardants
- BPA
- Perfluorinated chemicals
Stress, Poor Diet, Lack of Exercise can lead to feeling:

- Fatigue or difficulty sleeping
- Digestion and gastrointestinal problems
- Food cravings and weight gain
- Reduced mental clarity
- Low libido
How do internal organs assist in purification?

Liver
- Filters toxins
- Aids the body in metabolizing fat, protein, and carbohydrates
- Helps transform many toxins into harmless agents

Kidneys
- Filter out waste and excess fluid from the blood
- Regulate and release the right balance of sodium, phosphorus, and potassium for the body to function properly
How do internal organs assist in purification?

Small Intestine

- Digests food so that nutrients can be absorbed into the blood and transported to the liver
- Provides a barrier that blocks toxins from the rest of the body

Large Intestine

- Absorbs water and electrolytes, forming waste that is excreted from the body
- Produces antibodies for GI health
- Contains bacteria that create fatty acids and some vitamins for additional nutritional support
Liver: Primary Organ of Detoxification

Nutritional Support for Liver Detoxification Pathways

Phase One (cytochrome P450 enzymes)
- Support from: Riboflavin, Niacin, Pyridoxine, Folic Acid, Vitamin B_{12}, Glutathione, Branched-chain amino acids, and Phospholipids

Phase Two (conjugation pathways)
- Sulphation
- Glucuronidation
- Glutathione Conjugation
- Acetylation
- Amino Acid Conjugation
- Methylation

Reactive Intermediary Metabolites
- Support from: Carotenes, Vitamin C, Vitamin E, Selenium, Copper, Zinc, Manganese, CoEnzyme Q_{10}, Thiols, Bioflavonoids, Silymarin, Pycnogenol

Excretion of Derivatives (bile, serum, kidneys, urine)
Our Dietary Choices are Major Contributors to our Overall Health and Weight.

- Additives
- Sugar-Sweetened Drinks
- Unhealthy Fats
- Empty Calories
Vegetarian to Paleo to Gluten-Free or SAD: As a whole, we need to cut the calories!

- Vegetables: 87% have intakes below the goal
- Fruit: 75% have intakes below the goal
- Total Grains: 44% have intakes below the goal
- Dairy: 86% have intakes below the goal
- Protein Foods: 42% have intakes below the goal
- Oils: 72% have intakes below the goal
- Added sugars: 70% have intakes above the limit
- Saturated fats: 71% have intakes above the limit
- Sodium: 89% have intakes above the limit

</table>
In 21 days you can do a lot for your body.

- Support the body’s natural detoxification pathways
- Maintain a consistent healthy weight
- Begin a healthier lifestyle
- Have more energy
- Improve digestion

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Research Points to Success

Standard Process® Purification Program

The results from 28 chiropractic patients strengthened the theory that a calorie-restricted whole food diet along with nutritional supplements can support healthy serum lipids and weight when administered under the guidance of a trained health care professional.

Purification Products

SP Cleanse®—support of the body’s normal toxin removal processes

SP Complete® or SP Complete® Dairy Free—nutritious supplement shakes

Gastro-Fiber® or Whole Food Fiber—fiber support

SP Green Food®—phytonutrients

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
SP Cleanse®

- Combines 20 unique whole food and botanical ingredients
- Supports healthy kidney, liver, and gallbladder function
- Encourages healthy digestive function
- Supports the body’s natural toxin-elimination functions
- Promotes healthy elimination

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Cleanse®

Juniper berry—historically used as a natural diuretic

Red clover flower—historically used to promote cleansing of the blood

Apple pectin—natural fiber

Burdock root—promotes healthy kidney function

Barley grass—complex sources of naturally occurring vitamins, minerals and supportive phytonutrients like beta carotene

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Cleanse®

**Spanish black radish root**—provides phytochemicals the support the body’s phase one and two detoxification mechanisms

**Oregon grape root**—supports normal bowel transit, normal immune system action, and skin health

**Fenugreek seed**—cholesterol metabolism

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
SP Complete® or SP Complete® Dairy Free

- Essential whole food nutrition in a convenient powder
- Provides amino acids
- Supports intestinal, muscular, and immune health
- Provides antioxidant activity
- Supports healthy liver function
- Supports the body’s normal toxin-elimination function
- Supports the maintenance of a healthy weight when combined with a healthy lifestyle

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Complete®

Protein: Whey (SP Complete) or rice (SP Complete Dairy Free)—provides amino acids, the building blocks of protein, and help support healthy muscle tissue maintenance.

Barley grass—complex whole food ingredient

Buckwheat and flax—provide fiber to support healthy elimination.

Alfalfa—complex whole food ingredient included to promote digestive health.

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Complete®

**Calcium and magnesium**—assist in keeping bones and teeth strong

**Grape seed and red wine extracts**—provide oligomeric proanthocyanidins (OPCs) for cardiovascular support and antioxidant activity

**Buckwheat**—supports circulation

**Choline and inositol**—support healthy nerve and brain function

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
SP Green Food®

- Contains five whole food ingredients
- Promotes healthy liver function
- Provides antioxidant activity
- Supports overall cellular health
- Provides phytonutrients
- Supports cholesterol metabolism already within a normal range
- Supports the body’s normal toxin-elimination function

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Green Food®

Brussels Sprouts and Kale – support of cholesterol metabolism when already within a normal range and antioxidant activity

Buckwheat – supports muscle health and satiety as well as provides antioxidant activity

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Key Ingredients in SP Green Food®

Barley Grass - complex whole food ingredient that provides antioxidant activity along with a host of nutritive factors

Alfalfa – historically used to support the bladder and kidney and used today to support the body’s normal toxin elimination processes
Gastro-Fiber® or Whole Food Fiber

- Support healthy elimination
- Promote a healthy gut
- Gastro-Fiber can help maintain healthy lipid and blood glucose levels already in normal ranges

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Supportive Products

**Whey Pro Complete** — supplies protein for muscles and colostrum and inulin for GI-based immune system function support

**Tuna Omega-3 Oil (perles)** — provides omega-3 fatty acids (serving size 2 perles)

*or* **Calamari Omega-3 Liquid** (serving size 1 teaspoon)

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
Supportive Products

**Gymnema (MediHerb®)** — maintains healthy blood sugar levels already within a normal range when combined with a healthy diet

**ProSynbiotic** — supports gut flora and overall intestinal health

**Linum B₆** — contains flaxseed oil to help maintain healthy skin, nerve tissue, and cognitive function

These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.
The Journey Begins

Days 1-10

• Unlimited organic (if possible) fruits and vegetables, particularly green, leafy vegetables
  • Twice as many vegetables as fruit—very important
• Legumes (green beans, lentils, peas), quinoa, raw seeds

Days 11-21

• Same as above plus protein (fish and lean meat)

• Water (cleanest you can get!)
• High-quality oils
• Exercise (30-45 minutes) at least four days per week
When in doubt, avoid anything not listed in the program guide. This is vitally important to your success.

- Margarine, spreads, corn oil, vegetable oil, safflower oil, sunflower oil, and ALL hydrogenated oils and trans fats
- Caffeine and alcohol
- Coffee, tobacco, or other stimulants
- Sugar-sweetened beverages
- Nuts, beans, dairy, and grains
- Processed or refined foods
- Dried/canned vegetables and fruit
- Cured, smoked, or luncheon meat
Supplements

Days 1-7

• 2-3 SP Complete® or SP Complete Dairy Free® shakes/day
• 7 SP Cleanse® capsules 3 times per day (One bottle lasts a week.)
• 3 Gastro-Fiber® capsules 3 times per day or 1 tablespoon Whole Food Fiber per SP Complete shake

Days 8-21

• Add 5 SP Green Food® capsules 2 times per day in place of the SP Cleanse.

Note: Supplements can be added to the SP Complete shakes if swallowing capsules is not preferred.
Purify your body. Transform your life.
